Robotics Solutions

Premier Automation designs and implements automatic robotic systems for industrial OEM and End User customers. Automated robotic systems are an increasingly versatile, safe, and cost-effective solution for a broad range of industrial applications.

We are equipped to integrate, upgrade, or retrofit your robotic automation system.

⚙ Application Zones

- Material Handling
- Machine Tending
- Material Removal
- Dispensing
- Automated Vision Systems

Streamline Production & Efficiency

⚙ Custom/Process Equipment

- Laser cutting / marking
- Assembly
- Inspection
- Flexible feeding

⚙ Line Automation

- Automatic robotic systems can be integrated seamlessly into an existing process, such as a conveyor, for applications like assembly, packaging, and production.
- The introduction of robotics to an automated line can streamline production for greater efficiency and cost savings. Line automation with robotics cover a wide range of applications and solutions.

Safe & Cost-Effective Solutions

Pemier Automation is a systems integrator for:

FANUC — AUTHORIZED SYSTEM INTEGRATOR

Authorized value provider
ABB

LINCOLN ELECTRIC AUTOMATION — AUTHORIZED ROBOTIC INTEGRATOR

YASKAWA

UNIVERSAL ROBOTS

**Powering Industrial Automation**

Passionate engineering drives us at Premier Automation. We thrive on solving problems, exceeding expectations, and developing innovative answers to automation's toughest questions.

Since Premier Automation's inception, our engineers have overcome countless challenges in diverse industries to deliver solutions that satisfy our clients, and test the boundaries of our own capabilities. We are a dedicated team of professionals who make things work for the people we serve.

Your Success is Our Priority

You can rely on our experienced staff to work closely with you to achieve tailored control panel solutions.

We ensure superior quality and complete customer satisfaction on every project.

"We fight to make sure that you succeed every time."

– Mike Gunniers, Managing Partner

Whatever your needs, Premier Automation can sharpen your facility's competitive edge and improve your bottom line. With Premier Automation, you can expect innovative custom solutions for your facility's unique needs.

Trust our Numbers

With 50,000 square feet of manufacturing, Premier Automation is one of the largest independent Industrial Automation Solutions Companies in the U.S. We work with most major electrical & automation equipment manufacturers to ensure the perfect solution for you.

Solutions & Services

What we can do for you:

- Keep production costs down and improve performance
- Integrate systems and equipment for increased efficiency
- Reduce downtime and improve system reliability
- Upgrade, repair, and extend the life of your equipment
- Capture and evaluate key metrics with Operational Equipment Efficiency (OEE)

Premier Automation's technology solutions are industry-specific to increase your uptime, efficiency, and total system performance.

Industrial Robotics

Industries We Serve:
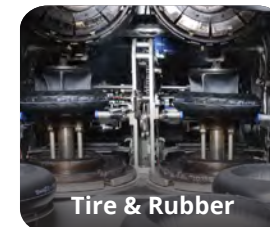

- Metals
- Glass & Plastics
- Water & Wastewater
- Transportation
- Recycling
- Tire & Rubber
- Pulp & Paper
- Aggregate & Cement
- Oil & Gas
- Material Handling
- Government & Defense
- Food & Beverage
- Energy & Utility
- Cryogenics
- Recreation

Improve Your Efficiency

PREMIER AUTOMATION
POWERING INDUSTRIAL AUTOMATION

Each year the industrial market shifts, and manufacturers must adapt to the changing economic landscape. Unplanned downtime, a lack of data and analysis, or outdated equipment can make productivity feel like a steep uphill climb. Now, modern automation technology can eliminate these **barriers to make competitive efficiency possible.**

Can your manufacturing efficiency be improved? We have the solutions.

YIELD
Transform underperforming equipment or optimize your production system to achieve higher yields.

EFFICIENCY
Eliminate waste, increase energy savings and produce high quality products at a higher rate by tracking and resolving inefficiencies.

MAINTENANCE
Upgrade or retrofit your equipment to avoid the costs of unplanned downtime, expensive repairs, and outdated production.

From concept to completion, Premier Automation is your industrial automation partner for:

- Electrical System Design
- Drafting Services
- Automation & Drive Systems
- Panel Design & Fabrication
- On-Site Installation & Commissioning
- Field Service Troubleshooting & Repair

Panel Design & Fabrication

Premier Automation fabricates high-quality control panels for many industrial applications. Our panels are produced through exemplary workmanship, close attention to detail, and commitment to excellency.

THREE TIERS
OF QUALITY ASSURANCE TESTING

Wiremen review and verify workmanship.

Area group leaders perform pre-power checks and verify accuracy.

Test technicians perform comprehensive final evaluation.
