PREMIER AUTOMATION

Innovative Custom Solutions

Our core divisions include:

Automation

Drives (AC/DC)

Electrical Controls

Power & Distribution

Industrial Robotics

- ✔ Electrical System Design
- ✔ Automation & Drive Systems
- ✔ Panel Design & Fabrication

What we can do for you:

- ✔ Keep production costs down and improve performance
- ✔ Integrate systems and equipment for increased efficiency
- ✔ Reduce downtime and improve system reliability
- ✔ Upgrade, repair, and extend the life of your equipment
- ✔ Capture and evaluate key metrics with Operational Equipment Efficiency (OEE)

Premier Automation's technology solutions are industry-specific to increase your uptime, efficiency, and total system performance.

Drives Solutions

- ✔ **Coordinated Drive & Automtion Systems**
- ✔ **AC Common Buss Coordinated Process Lines**
- ✔ **DC Drive Solutions**
- ✔ **Regenerative Drive System**
- ✔ **Power Supplies and Battery Systems**
- ✔ **Motion Control Systems**

Automation Solutions

- Migrate your legacy control systems to current technology
- PLC Programming & HMI Development
- Operator and Maintenance control stations & troubleshooting systems
- Software Interfacing between new and old control systems
- Integration and coordination with Drives and other systems

Robotic Applications

PREMIER AUTOMATION ROBOTICS

- MATERIAL HANDLING
- PROCESS
- TRACEABILITY/QUALITY CONTROL
- ASSEMBLY
- PERIPHERALS
- CUSTOM/PROCESS EQUIPMENT

Robotic Partners

FANUC · AUTHORIZED SYSTEM INTEGRATOR

LINCOLN ELECTRIC

Authorized value provider ABB

UNIVERSAL ROBOTS

IMPROVE YOUR **EFFICIENCY**

Modern automation technology can eliminate barriers caused by unplanned downtime, a lack of data and analysis, or outdated equipment. We offer custom solutions to keep your business competitive.
Industries We Serve:

Metals

Glass & Plastics

Water & Wastewater

Transportation

Recycling

Tire & Rubber

Pulp & Paper

Aggregate & Cement

Oil & Gas

Material Handling

Government & Defense

Food & Beverage

Energy & Utility

Cryogenics

Entertainment
